

REPUBLICAN TICKET.

Election, Tuesday, Nov. 7th.

CONGRESSIONAL TICKET.

For Congress—First District.

CHARLES G. WILLIAMS, of Rock.

SENATORIAL TICKET.

For State Senator—Fifth District.

S. L. LORR, of Fulton.

ASSEMBLY TICKET.

For Assembly—Third District.

JOHN CONLEY, of Clinton.

COUNTY TICKET.

For Sheriff.

R. B. HARPER, of Spring Valley.

For Register of Deeds.

CHARLES L. VALENZUELA, of Janesville.

For Clerk of the Court.

A. W. BALDWIN, of Milton.

For County Treasurer.

WILLIAMS MILLS, of Janesville.

For County Clerk.

SYLVESTER MORRIS, of Lima.

For District Attorney.

JOHN W. SALES, of Janesville.

For County Surveyor.

EDWARD RUGER, of Harmony.

For Coroner.

R. L. COLVIN, of Janesville.

WILLIAMS' APPOINTMENTS.

The Hon. Charles G. Williams will address Republican meetings as follows:

Kenosha, Tuesday, October 3.

Delavan, Wednesday, October 4.

Whitefish, Saturday, October 7.

Another sad result of the Jeannette disaster, is that Lieutenant Danenhower will take the lecture field.

It is said that 18,000 people were thrown out of employment by the going out of business of the A. T. Stewart firm.

Every true Republican will carefully consider the Congressional question this year. There is too much at stake to overlook it.

This will be a memorable year in politics, and the Republicans of Wisconsin should strike for the biggest majorities possible.

Senator Sherman is setting a good example for his brother Republican Senators. He is busy making speeches for the Republican party.

It is stated on the best of authority that several of the leading prohibitionists of the eastern part of the First district, will take the field for Mr. Williams.

Sergeant Mason is still engaged in making shoes in the Albany penitentiary. There is so much red tape connected with the habeas corpus, that he is becoming discouraged, and looks very much out of health.

The special committee in the Keyes-Hazleton matter will meet in Madison to-day. So far there is no hope of a settlement. The only way to insure Republican success in the Third district is to take both candidates out of the field.

One of the campaign documents sent out by the Ohio Democrats contains a cartoon which represents the Republican party as the "bunkumish brigade." The agency through which these documents are circulated is the saloons, each bartender having been supplied with a package which he is expected to put where it will do the most good.

The Milwaukee Republican-Sentinel publishes several columns of news gathered in all parts of the State in regard to woman suffrage; and the summing up of the whole matter is that there is a general difference on the subject in Wisconsin. It is not one of these questions which can arouse any enthusiasm, and therefore the sentiment in favor of female suffrage is of slow growth.

The Janesville Gazette is authority for the statement that the State Central Committee is "not opposed to Keyes," and that, in looking over the situation in the Third District, if the matter shall be left to its members for settlement, "the right will win." If this shall prove true, General Fairbairn will not be asked to step into the breach.—*Evening Wisconsin.*

Inasmuch as all the telegrams to the Evening Wisconsin bearing upon this question have been against the treachery of Stokely, one may properly infer from the tone of the above editorial item that the Evening Wisconsin thinks that the only way right can win is to consider or Keyes the rightful candidate.

The Republican Congressional Campaign Committee at Washington, is becoming alarmed, it is said, at the present state of affairs in the South. The expectation that losses in the North would certainly be offset by gains in the South has been the principal ground. The Republicans have had for claiming a majority in the next House. But the appearance of numerous independent candidates in Southern districts has cast a cloud over Republican prospects in that neighborhood. A large amount of money is said to have been sent to these doubtful districts, but it remains to be seen whether the returns will justify the outlay.

There is a candidate for Congress down in Tennessee who is making a lively canvass by playing the fiddle on the stump. He hasn't got so much oratorical powers as his opponent, but when he is advertised to play "The Arkansas Traveller" and "Old Roan the Bow," and such old times, the people go miles to hear him. In addition to this he treats his hearers, and this widens his popularity and will insure his election in a Democratic district. It is said that Davy Crockett won his election by winning on fiddle matches and spending the money in

treating. The Democratic delegation in Congress will be considerably improved in its make-up when it gets a good fiddler on its side of the house. It can't boast of anything good now.

No one has the least conception of the enormity of the oil trade of the United States until he reads of the weekly transaction in that department of industry.

The sales for the week ending September 23d, at Bradford, Oil City, and Pittsburgh, almost stagger belief. The transactions during the six days averaged 18,538,000 barrels per day. Add to this the transactions in the New York, Warren and Philadelphia Exchanges, and the sum total will aggregate upwards of 20,000,000 barrels daily. This seems like speculative sales as the daily production of oil is not more than 80,000 barrels. But the explanation is that there are more than 30,000,000 barrels in store, and this vast amount is chiefly represented by certificates which are readily transferable, and hence the enormous trade which is being transacted weekly.

SPECULATION AS TO THE RESULT.

There are all sorts of speculations as to what will be the result of the election in the First Congressional district. Of course, reports and conjectures are conflicting—the political enemies of Mr. Williams professing to believe that his majority will be either cut down to a nominal figure, or that he will be defeated. The latter is among the impossibilities, and the former among the improbabilities. There are those opposed to him who take quite an enthusiastic view of the situation, their judgment being warped by their prejudice. When a man looks at the cold facts in this business, he will see that there is no such thing as a defeat of Mr. Williams. The district is too largely Republican to be captured by any coalition that may be effected between the Democrats and the Independents. Let us see what the vote was last year in the five counties constituting the present First Congressional district:

	Rep.	Dem.	Ind.	Total
Janesville	1,172	289	41	1,502
Rock	1,172	289	41	1,502
Fulton	1,172	289	41	1,502
Clinton	1,172	289	41	1,502
Madison	1,172	289	41	1,502
Total	5,688	1,456	206	7,350

On the basis of the vote of last year, the Independent Democrats must overcome a majority of 2,458, and of course this is one of the things which is not within their power to do. We judge the vote in the district will be larger than that of last year, and making some allowance for the increase of the prohibition vote—calling that 2,200—and giving the disaffected Republicans a few hundred which will swell the Democratic vote to about 8,000, there will yet be such an increased Republican vote as to make Mr. Williams' majority fully as great as the majority Governor Rankin received in 1881.

There are chances that Mr. Williams' majority will be even greater than that. However that may be, it will be so large that any hope the Independent Democrats may indulge in about "a nominal figure" or a defeat, will be completely blighted by the vote on the 7th of November. This result will not be a surprise. In the first place the district is unchangeably Republican to begin with; and in the second place, outside of one or two localities there will be but a slight change in the Republican vote. It may be set down as a rule that the Republicans are not yet prepared to send a Democrat instead of a Republican to Congress from the First district. The sober judgment of the people is against such a change, and no amount of coaxing from any source can bring about such an unfortunate condition of political affairs in this district.

The Republicans have resolved to beat them this fall, and will not go back on the resolution.

Embezzlement.

CHICAGO, Oct. 2.—John F. Durill, 3d secretary of the Illinois Masonic Grand Lodge, was arrested in Minneapolis and taken to Springfield on charge of embezzling \$5,000. He was unable to procure bail in \$10,000, and was sent to jail. Gov. John Smith made the complaint for the lodge.

B. Gratz Brown.

INDIANAPOLIS, Oct. 2.—B. Gratz Brown is industriously at work in this state in behalf of a prohibitory amendment to the state constitution. At Shelbyville, Saturday evening, he had an immense audience, representing all political creeds and all social conditions.

A Beecher Anniversary.

NEW YORK, Oct. 2.—Mr. Beecher, on the thirty-fifth anniversary of his connection with Plymouth church, took occasion to say that of late years his beliefs have not changed, and it was his responsibility alone to his congregation.

Stewart's Dry Goods House Closed.

NEW YORK, Oct. 2.—Stewart's dry goods house has closed its doors forever. Judge Dillon states that the widow has been receiving a rental of \$300,000 per annum from the Tenth street building, and it is to be divided up to pay more.

The Liquor Dealers.

BOSTON, Oct. 2.—The brewers and liquor dealers of Boston decline to hand over \$100,000 to the Democratic campaign committee, protesting that they will use their funds themselves in securing non-prohibitory legislation.

A Hurricane in Ireland.

LONDON, Oct. 2.—A hurricane which swept over Ireland yesterday blew away the spire of a Catholic church at Limerick during service, and damaged the jail. The American ship Harvey Mills was driven ashore at Queenstown.

By Telegraph.

THE R. E. LEE.

Burning of the Fastest River Boat that Ever Turned a Wheel.

A Mississippi Horror Linked With the Career of the Noted Vessel.

Twenty-One Passengers Burned to Death Before the Boat Reached the Shore.

Twenty-two Passengers Saved—Heroic Action of the Pilot and Engineer—Grief in New Orleans.

YICKSBURG, Oct. 1.—The steamer R. E. Lee, one of the most noted boats on the Mississippi river, was burned to the water's edge yesterday morning about thirty-five miles below Vicksburg. Twenty-one persons were lost. The boat had been freshly painted, and the flames spread rapidly. One of the passengers said: "She burned like gunpowder." The Mississippi boats at best are frail and inflammable structures, but this one was particularly fitted to burn quickly and carry as many as possible to the passengers to their graves. She was not only freshly painted, but loaded with 500 barrels of cotton, which added fuel to the flames. She was the crack boat of the Mississippi river, her celebrated race with the Nashville being still the favorite topic of river gossip, and an invaluable reminder of the days when river traffic in the south was more important than the railroad competition.

She left Vicksburg Friday evening for New Orleans with 500 bales of cotton and a good lot of passengers. While opposite Point Pleasant, at 2:30 a. m., she was discovered on fire, and was immediately headed for the Louisiana shore and landed at Vicksburg plantation, thirty-five miles below Vicksburg. In a few minutes she was completely enveloped in flames.

Twenty-one persons are believed lost, including many of the crew. The steamer, owned by M. White, passed the wreck about 5 a. m., and took the remaining passengers and crew to Vicksburg. S. C. Readings and Robert Smith, pilots, were both burned and otherwise hurt. The fire, it is supposed, originated in the pantry room. So rapidly did the flames spread that it was impossible for passengers or officers to save anything except what they had on at the time. Capt. W. S. Cannon stated that the steamer was owned by the estate of his father, John W. Cannon, and her commander, Capt. William Campbell. The crew was composed almost entirely of men who had been on the river twenty or thirty years. The boat, besides supplies, had a new fire-pump with a fourteen-inch cylinder and 700 feet of hose. There were always three watchmen on deck.

The Lee left this city last Thursday on the first trip for five months.

She had on board about 415 bales of cotton. She took on board some few more at landings below, and about sixty-five bales from a small cotton-seed boat, also a large cargo of goods, shoes and dry goods, and a large quantity of sugar, hides, and other articles. She was loaded with a large lot of miscellaneous freight. She stopped to load twelve miles below here at 12:30 a. m., and remained some time. The last landing made before the fire was at a landing about twenty-five miles below this city. At the time the alarm was given the boat was under way, and was immediately headed for shore, and struck the bank in three or four minutes.

Whenever a survivor was seen on the shore he was taken to a large crowd, and given the usual amount of money for his services. Numbers were seen with head and arms bound up, some of them in considerable pain, while others were not so badly hurt.

Mr. Ovid Ball, second clerk of the Lee, who was up at the time the accident occurred, stated that he saw nothing but a great fire. He was at the time, and when he heard the alarm, knowing any partner and other officers were in the boat, and in great danger, I rushed up to a lookout. The fire, it is said, burned so fast that by the time I had them all up my partner and his hair singed in getting down stairs from the cabin deck, and the fire was so hot that the rail. The boat had just been freshly painted, and she went like gunpowder.

Mr. Ball and a passenger who was interviewed at the scene of the disaster, and the room of the co-captain, though I don't see," said the former, "what the fire was doing in there so early, as the boats are not called here a'clock."

Mrs. Dan Scarb, with heroic presence of mind and motherly devotion, grasped her sleeping infant, and arranging a life-preserver for her, she ran down the ladder, and jumped boldly into the water. By disarranging of her life-preserver she was thrown upon her back and her grasp upon her child.

Some of the men, however, all leave by to-night's train for New Orleans. The saved one of their lives to the admiration of the crew.

He stood at the head of the boat, and the fire was so hot that the men in the pilot-house, who despite the fire around him, with almost the last hope of escape, remained at his post until he was rescued by the engineer that the boat had made the shore. Not until this time did he for one minute leave his post from the wheel. He made his escape by the hurricane roof down the log-chain to the lower deck, and from there he saved.

Some think the fire was the work of an incendiary, while others believe it accidental. Engineer Perkins first saw the flames issuing from the pantry-room, in which there being no lamps at the time. The steward, Henry Curran, states no coal or other combustible material was ever kept in the kitchen, pantry, or pilot-room. He thinks it was incendiary.

Engineer Perkins, instantly after discovering the fire, notified the pilot, and the boat was headed for the Mississippi side, and plunged with almost the last hope of escape, remained at his post until he was rescued by the engineer that the boat had made the shore. Not until this time did he for one minute leave his post from the wheel. He made his escape by the hurricane roof down the log-chain to the lower deck, and from there he saved.

TUTT'S PILLS

**A DISORDERED LIVER
IS THE BANE**
of the present generation. It is for the

Cure of this disease and its attendant
SICK-HEADACHE, BILIOUSNESS, DYS-
PEPSIA, CONSTIPATION, PILES, etc., that
TUTT'S PILLS have gained a world-wide
reputation. No remedy has ever been
discovered that acts so gently on the
digestive organs, giving them vigor to as-
similate food. As a natural result, the
Nervous System is Braced, the Muscles
are Developed, and the Body Robust.

THE RIVAL A planter at a famous southern estate, says: "My plantation has been the scene of many a serious attack of dysentery. I could not make half a bushel of rice, and I have had to account of bilious diseases and chills. I was nearly discouraged when I began the use of TUTT'S PILLS. The result was marvelous; my laborers soon became hearty and robust and I have had no farther trouble."

TUTT'S HAIR DYE
GRAY HAIR or WHISKERS changed to a Glossy Black by a single application of this Dye. It is pure, of natural color, and acts instantly. Sold by Druggists, or sent by express on receipt of One Dollar.
Office, 35 Murray Street, New York

Briefs.

—The Fair to-morrow.

WANTED—A compositor, at the Gazette Job Rooms.

—A tramp was asked to live on bread and water for three days in jail by Judge Fatten to-day, for getting drunk.

—This is very comical weather. It's "first she world and then she wouldn't rain." Keep it up until after the fair.

—The thermometer at Prentice & Evenson's registered 60 degrees above zero, at 7 a. m. to-day and 72 degrees above at 1 p. m.

—Be sure and see the great bicyol race and the trotting meeting at the Fair this week. Every day will be fitted up with attractions.

—The Rev. Mr. Davies, of the Congregational church, preached an excellent sermon yesterday morning on Home Missions, after which a collection was taken up which amounted to \$63.

—The concert to be given by the Bower City Band on the evening of October 13, will be one of the best entertainments of the kind that worthy organization has yet given us.

—Marshall Hogan was busy all the forenoon ordering storekeepers and others to remove obstructions from the sidewalks. Boxes of every kind had to be taken in.

—The merchants on Main street put their clerks to work to-day scraping the street in front of their places of business. A busy scene was presented by these amateur wielders of the hoe.

—Mr. Herman Bucholz is preparing to make a splendid display of buggies, carriages and other vehicles at the fair, and his collection will vie with that on exhibition anywhere in the country.

—John Wheeler an old timer of the town of Porter was fined \$1, and costs in the Municipal court to-day for being drunk, and John Delephant was awarded one day in jail for the same offense.

—At the regular bi-weekly meeting of the teachers held last Saturday, the study of English literature was taken up and Bacon selected as a subject for essays and discussion. The teachers were paid their salaries for September on Saturday.

—The Hyer Sisters will open a two nights' engagement at Lippin's Music hall this week, commencing Wednesday night. They give a very pleasing entertainment and will draw well. Reserved seats will be on sale to-morrow at King's bookstore.

—A little ten-months old daughter of Mr. and Mrs. I. C. Brownell died last Saturday night, of cholera infantum, after a very brief illness. The funeral which was largely attended, took place this afternoon from the family residence, in the Second ward, the Rev. Dr. Hodge officiating. The remains were interred in Oak Hill cemetery.

—Complaint having been made that a gang of roughs were creating considerable annoyance to a few families in Monterey, Mayor Croft and Marshal Hogan paid several visits to the neighborhood and finally discovered the nocturnal revellers last night and ordered them to desist from their practices under penalty of imprisonment.

—Mr. E. Hall, has just returned from the East, with a large and fine stock of millinery goods, which he is now offering at reasonable figures. The stock is made up of all the newest designs, the emporiums of fashion having been lavied upon by Mr. Hall, to supply his customers. Ladies should not fail to call and examine the beautiful collection.

—A recherche entertainment will be given by W. H. Sargent Post, No. 20, on the evening of Oct. 20. The invitations to the affair are handsomely engraved with the monogram of the Post, and a G. A. R. badge. They are elegant, yet devoid of any showiness. The committee on invitations are, Messrs. W. B. Britton and E. G. Harlow. The reception committee are, Messrs. H. A. Smith, S. C. Burnham and Wilson Lane.

—The boards of the Opera House will be occupied to-night for the first time in nearly three weeks by a professional theatrical company. The Herbert combination will appear in the really fine comedy-drama "Colleen Bawn." J. W. Burton and Miss Millie Willard will appear in the leading roles of Myles Na Copeleen and Ann Chate (the colleen Raadh), and will be supported by a company of talented people. The troupe arrived this afternoon, and the band accompanying them gave some choice selections of fine music. Reserved seats are on sale at Prentice & Evenson's.

—The city will of course be crowded this week, and strangers will frequently cast about for some place to spend a half-hour away from the throng. A good place to do this and get a knowledge of how extensive a business may become, is to visit the Hardware establishment of Lawrence, Atwood & Lowell, where any one not thoroughly acquainted with the trade, would be surprised to see the variety of articles on exhibition, used in every day life. The firm is plentifully stocked with everything pertaining to their business, and gentlemanly clerks will take pleasure in showing visitors around. Give them a call.

Closing a Store.

The oil and paint store of Parmelee & Nesselroed, formerly kept by Mr. John Davies, next to Green & Rice's on West Milwaukee street, was closed this morning on an attachment sued out by Towle, Carle & Co., of Chicago. About two weeks ago Mr. Davies sold his store to Messrs. Parmelee and Nesselroed, who were very much surprised this morning when deputy sheriff Drake levied upon them. It seems that Mr. Davies owed the Chicago firm a bill of about \$500, which they took this means of collecting the new owners having neglected to record their purchase. Mr. Davies is at present absent from the city, and when he returns, everything will probably be set right.

Messrs. Parmelee and Nesselroed are perfectly innocent in the matter and were conducting their business in a fair, legitimate manner.

JANESVILLE VS. ROCKFORD.

The Broom Brigades of the Two Cities to have a Competitive Drill Next Week.

The novel sight of a competitive drill between ladies broom brigades, will be vouchsafed the Janesville public this week when the Janesville Broom Brigade will meet the Centennial Broom Brigade of Rockford in all the pomp and panoply of uniformed beauty determined to conquer or die. The young ladies composing the broom brigade are drilling regularly and have acquired a proficiency which cannot very well be surpassed by the visitors. The public have already seen them drill, and knowing what they can do, will back them against the world. Since the drill for the benefit of the Christ church organ fund, however, the Brigade has lost one of its most efficient and best drilled members—Miss Ada Holdredge, the orderly sergeant who resigned some time ago. In losing Miss Holdredge the organization lost a most effective and valuable member, but the difficulty now existing will be fully remedied by the time the contest takes place with Rockford.

The challenge to meet them in a drill was sent by the Janesville company, and was as follows:

JANESVILLE, Sept. 1882.
Captain Lander, Commanding Centennial Broom Brigade, Rockford, Ill.:
The Janesville Broom Brigade hereby extend a friendly challenge, to the Centennial Brigade to meet them at Janesville in a competitive drill, each brigade to drill in its own way—drills not to be barred. Other arrangements to be settled hereafter.
Signed
COMMITTEE FOR JANESVILLE BROOM BRIGADE.

The acceptance which was received in due time, after the issuance of the challenge, reads as follows:

Rockford, Sept. 26, '82.
Committee for Janesville Broom Brigade:
We accept your challenge and will try to give a good drill, leaving arrangements as to time and place to you.

I am,
Yours respectfully,
THOMAS G. LAWLER,
For Centennial Broom Brigade.

The other necessary arrangements have been completed, and the drill will take place in the Guards armory Friday and Saturday evenings of this week.

Look sharp when your skin breaks out in pimples, and use CLENN'S SULFUR SOAP.
Hirt's Hair Dye, black or brown 50 cents.

A Brothhead Sensation.

Brothhead, Green county, is again in the throes of a sensation. Not long ago the public there were wondering at the cause of the death of a brilliant young Congregational minister and now they are whispering mysteriously about the demise of a young woman and her child, and the alleged connection therewith of a young man of the place. The affair is shrouded in mystery, but gossip is relating a manner of tales, some of them having a strong criminal import. On September 13, Dora Whitesett, a pretty girl of 17, gave birth to a dead foetus, and shocked the community by her shame. The young mother soon followed her offspring, dying on September 24. Before death, she stated in answer to questions that Manly Young, the handsome son of John Young, proprietor of the "Young House," in Brothhead, was the father of the child. It is alleged that when he saw the horrible result of his criminal intimacy with the young woman, Manly concluded to leave home, and did. Half formed impressions that foul play had been employed, soon developed into confirmed suspicions, and the authorities determined to investigate the matter. Young was brought back to Brothhead. The remains of Dora Whitesett, were exhumed and an autopsy held. The coroner's jury decided that death resulted from puerperal fever, and that the child had died of a loathsome disease prior to birth. These horrible particulars set speculation ripe and rumors were spread like wild-fire. The investigation is to be prosecuted further to ascertain if possible, if there had been any criminal tampering with the woman, while she was in a delicate condition.

Tobacco Sales.

Sales of seed leaf tobacco reported by J. S. Gans' Son & Co., tobacco brokers, No. 131 Water street, New York, expressly for the Janesville Gazette, for the week ending October 24, 1882:
80 cases, crop of 1881, Wisconsin, Havana seed, 15 to 20 cents.
550 cases, crop of 1881, New England, 15 to 30 cents.
325 cases, crop of 1881, Pennsylvania, 10 to 30 cents.
800 cases, crop of 1880, Pennsylvania, 10 to 20 cents.
200 cases, crop of 1881, State, 10 to 20 cents.
100 cases, crop of 1881, Ohio, 5 cents.
618 cases, crop of 1880, Ohio, 5 to 10 cents.
Total cases, 3,475.

A Saturday Affray.

A difficulty occurred on North Main street, at the corner of North First street shortly before 5 o'clock last Saturday afternoon between Thomas Walsh better known as "Budgit" Walsh, and Harvey Thomas, a farm laborer for J. Caldwell, of the town of Janesville. The men were both a little the worse off for liquor and became involved in a discussion in which Budgit's tongue was a little too much for the other, and he drew a revolver. This little episode occurred in Bender's saloon, but the men were ordered out, Thomas walking over to the other corner. Walsh followed and began bantering him, when he again drew the pistol and would probably have lodged a ball in Walsh's anatomy, but for a Beloit pugilist named John Keefe, who caught his hand just as Thomas pulled the trigger. The weapon was discharged, the ball entering the side of the Sponoe house. Thomas was not arrested and taken to jail. The affair attracted a large crowd, most of whom seemed disappointed that one was hurt. Thomas appeared before Judge Patton, in the Municipal Court to-day, and pleaded guilty to carrying a concealed weapon.

it having been shown that the pistol was discharged accidentally. He was fined \$10 and costs, which one of his neighbors paid for him, and he departed for home in peace.

Personal.

—Dr. Humphrey has gone to Stoughton, and will return Tuesday evening.

—Mr. Thos. S. Nolan has returned from a week's trip in Nebraska, Dakota, and Minnesota.

—Mr. and Mrs. I. F. Wilcox, of Fairfax, Va., are in the city, visiting their cousin, Mr. Isaac Furnessworth.

—Mr. Fred Quinn, formerly with Webb & Hall here, and now of Elgin, is in the city smiling upon his numerous friends.

—Mr. Ward Williams left to-day for Topeka, Kansas, where he will take a position in the General office of the Atchinson, Topeka, and Santa Fe railroad.

—Mr. Henry Murphy is now ornamenting the store of Smith & Son, and will fit any man, big or little, with a nobby suit of clothes, or stylish overcoat.

—Miss Fannie Edwards left, to-day for Somerton, Penn., and will be absent three or four months, during which time she will visit Philadelphia, and all places of note in the viennage.

—Mr. O. R. Dahl an accomplished musician has arrived in the city from Cincinnati where he has pursued a course of studies in the Cincinnati College of Music, and will give instructions in all kinds of instrumental music, particularly the violin.

COLDEN'S LENTEN'S LIQUID BERE AND TONIC INVIGORATOR is admirably adapted for females in delicate health. Colden's, no other. Of druggists.

The Baby Show.

Cham Ingersoll, of the Beloit Free Press, having been appointed one of the judges of the baby show, thus deploras his selection:

"There is to be a competitive exhibition of babies at the Rock County Fair, and the judges appointed to make the ribbon awards are, O. H. Fethers, Esq., Colonel Nick Smith, of the Janesville Gazette, Ed. Coe, of the Whitewater Register, T. S. Nolan, of the Janesville Recorder, and Cham Ingersoll, of the Beloit Free Press. Taken all in all that's a good committee, and Capt. Vankirk showed excellent judgment in making the selections. Any baby that won't hush its yawn and be awed in to good behavior when O. H. Fethers' mouth begins to get to its work, and round sounding words come tumbling out in a symmetrical procession, is a baby altogether too vain of its own exterior capabilities to be properly entitled to a blue ribbon or a trophy or frequently washed drinking-ung, or whatever the premium may be. What kind of a child is it that can possibly misbehave when it sees that valiant warrior, Colonel Nicholas Smith, all covered with gold lace and sword, and armed to the teeth with newly sharpened fustlers and breech-loading canteens, and shouting 'Fee! Fo! Fi! Fum! I smelt the blood of a kid! Give me some!' But if there should be the remotest possibility that such a misbehaving infant could be present through the indiscretion of an overfond mother, it is more than likely Ed. Coe could subjugate it without much trouble by singing one of those sweet lullaby songs with which he used to fascinate and strike spell-bound hard-headed legislators in the Assembly clerk's room of the Capitol at Madison. But still, even after the application of music, there may be an incorrigible or two, and then Nolan can rattle himself mightily useful in invoking one or a dozen, as the case may require, of the wild wicker banishes that are wont to roam over his native heath, and scare the little fellows into silence and rigidity long enough to give the miles a chance to exchange salutations. Whatever is left for Ingersoll to do is not so plain, unless it is expected that he is to bear the brunt and burden of the engagement, by awarding the premiums, in which case, the Society will be respectfully petitioned to furnish him a coat of mail, proof against hot water, finger nails and contemptuous glances. To be sure he has had an eye for a cherubic baby, and a master hand at disking out paragon feathers, molasses and any other ingredients which go to make infantile existence a perpetual round of pleasure. So, trot out your babies, and just let us at 'em, for we're the boys that fear no noise, however appalling it may be."

THE IRON BRIGADE.

What Colonel Watrous says About Dr. Palmer as a Fighting Surgeon.

The following interesting anecdote of Dr. Henry Palmer, of this city, we find in the Chicago Inter Ocean, of Saturday. It was written by Colonel J. A. Watrous of the Milwaukee Sunday Telegraph, and appeared in that paper on Sunday:

"Who is that short, solid man who seems to be enjoying himself so well?" said one.

That is Dr. Henry Palmer, Surgeon General of the State, and who went to the war as Surgeon of the Seventh Wisconsin. He also served for a time as Brigade Surgeon, and then was appointed to the regular army, after which he saw no more service in the brigade, being transferred to a wider field. That quiet gentleman was one of the most notable surgeons in the late war. When General Lee invaded Pennsylvania in 1863, Dr. Palmer was in charge of the immense hospitals at York. Early, who commanded a division of the rebels, made Dr. Palmer a prisoner, but he succeeded in twice escaping before Early left the city. When on their way to Gettysburg, and as they were nearing that city during the great battle, he got away and secreted himself in an old church for a time. As soon as possible he left his hiding place, both because the shells were tearing it to pieces and because he desired to aid in caring for the wounded. Dr. Palmer spent two years at York and built the immense hospitals at that place. When Harry Gilmore, the Confederate cavalry rider was approaching York, on another occasion, Dr. Palmer organized 700 or 800 of his invalids, armed them, and prepared to give the audacious Marylander a warm reception. Receiving word that Gilmore proposed to cross the river a few miles below York, Dr. Palmer loaded his men on a freight train and started for the threatened brigade. When within half a mile of the point the rebels fired into the train, and the "soldiers" jumped from the engine, and fled to the woods. As it happened there was not another engineer on the train. Learning this fact, Dr. Palmer, who was commander, staff officer, conductor, and orderly, took his place on the engine, ran the train to the bridge, repulsed the enemy, and then "backed" into York, with the loss of only a small number of men. Dr. Palmer was with the Russian army

during a portion of the late Turco-Russian struggle, saw much of the fighting, and was the bearer to Vienna, of the first full account of the battle of Plevna, which was telegraphed from there to the London Times. Janesville has no more worthy and public-spirited citizen than Surgeon-General Henry Palmer.

DAISIES—Now-a-days not to use "Lanberry," the new requisite for the teeth and breath, argues not to be Recherche; take a look at it at your drug store, 5 cent samples. Sold by Prentice and Evenson.

MAILED.
EDDY-OTIS—in the town of Rock, by the Rev. W. H. B. Edg, at the residence of the bride's father, S. R. Otis Tuesday evening, September 25, FRANKS C. EDDY and LILLIAN P. OTIS.
